

$\lambda(\sqrt{n})$

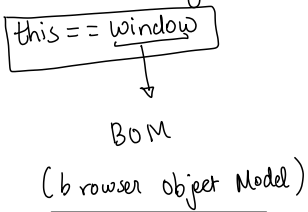

Binding (Jodna)

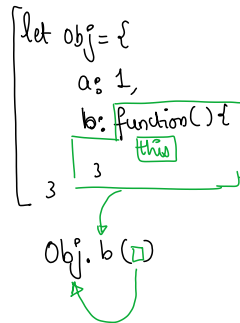

this

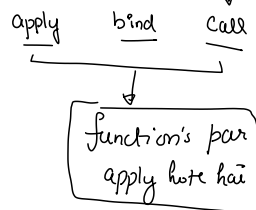

① Default binding

② Implicit binding

③ Explicit binding

④ new keyword binding

Constructor → function

Class Car {
 Car() {
 3
 }
};

→ They aren't meant to return anything

Car A; → Independent
Car B;

```
[ function createPerson(name, hobby, age) {  
  [ this.name = name;  
    this.hobby = hobby;  
    this.age = age;  
  ]  
}
```

createPerson("Vaibhav", "Tamil Songs Danna", 20);
createPerson("Kartik", "Kuvana Baap movie", 24);

→ Important functions
